

DON SILVERSTEIN

EXECUTIVE VICE PRESIDENT
DEVELOPMENT & CONSTRUCTION

RESPONSIBILITIES

Mr. Silverstein currently leads the Construction and Development team for Blake Real Estate, responsible for all construction and development activities in the Blake portfolio and all development/project management assignments for third-party clients.

EXPERIENCE

In his 45 year career, Don has planned, budgeted, and constructed over four million square feet of space, including office, hospital, laboratory, retail, food service, industrial, schools, houses of worship, recreational facilities, and historic preservation projects in seven states and the District of Columbia.

As a developer and owner's representative, Don has written and negotiated dozens of contracts with architects, engineers, specialty consultants, and general contractors.

In his role as a general contractor/construction manager, he has held profit/loss responsibility for a wide range of project types including interior office construction, historic building renovation, hospital and health care facilities, and heavy construction.
